# Important considerations:

- Choose courses you are interested in and enjoy – you will be studying them for 2 years.
- Think about your possible college and career options, but don't worry if you are not sure about this yet – you can specialise later on.
- Don't choose an option just because your friend is choosing it or because you like the teacher.
- If you are unsure, ask!

# Important considerations:

- Make sure you are selecting a broad, balanced selection of courses.
- Options are not first-come first-served, take your time to make your decision.
- You will take **4 option subjects**. We will ask you to pick 4 and then 2 reserves.
- Remember that there are a limited number of spaces on some courses.
- You will have the opportunity to discuss your options with a member of staff after you have selected them.
